13. Please refer to the Deposit Account Agreement to learn more about the bank's overdraft practices and services.

## Transaction Processing

### Deposit and Withdrawal Posting Information

Transactions are posted chronologically throughout the business day, whether they are deposits (credits) or withdrawals (debits), in one of two ways:

- 1) In-branch transactions, digital banking transactions, ATM transactions, wires, and Point-of-Sale PIN-based debit card transactions are immediately posted to the Bank's processing system at the time they are conducted;
- 2) Point-of-Sale signature-based debit card transactions, Automated Clearing House (ACH) transactions, "federal in-clearing checks" (checks drawn on your account but deposited at another bank), remotely deposited checks, lockbox transactions, and transactions processed by a Division of Zions Bancorporation, N.A. other than the Division that holds your account) are first grouped into batches of like transactions then posted at regular intervals (usually hourly).

Both ways of Real Time Processing pause at an End-of-Day Cutoff Point but resume the following business day. Interest is calculated and balances are determined (including balances for statement purposes, the Available Balance, any Overdrafts, or Insufficient Funds), at the End-of-Day Cutoff Point. For more details see your **Deposit Account Agreement**.
